

Practicing Intellectual Property Law in Asia:

Litigation, Enforcement, and Business Management

What channels are available for enforcing IP rights in Asia? Is the ITC an effective forum for domestic and foreign IP litigants? How do foreign companies manage IP risks while doing business with Chinese companies?

The EALR symposium brings together experienced attorneys and scholars to discuss intellectual property issues in Asia from a practical and comparative perspective. The speakers will address various IP practices by and against Asian companies with a particular focus on China.

AGENDA
